Docket No.00N-1396 & Docket No. 00D-1598

March 7, 2001

Dear Sir:

I believe that the FDA must: 1) require mandatory pre-market safety testing and environmental review for all GE food crops; 2) require mandatory labeling of all GE-containing foods; and 3) indemnify growers and processors of GE-free foods against losses resulting from GE pollen drift and other accidental GE contamination that is beyond their control.

Sincerely,
